

AUDREY KNOX University of Edinburgh: MA(Hons)Arch, Dip(Arch)Edin; RIBA;
ARB Registration: 063657F

Audrey recently joined Sprunt as Head of Wardour Street Studio. She has been an associate level architect for 11 years and is able to reliably run all aspects of projects.

As an experienced team leader, Audrey is able to effectively manage a team and help to deliver projects from concept through to completion. She has strong communication skills and specialises in designing for healthcare, special needs and housing.

Audrey's key skills include the ability to understand and untangle complex briefs and technical requirements, interacting with a wide range of clients, leading a design team from inception to completion and administering contracts.

Audrey has a strong interest in the arts and a passion for creating spaces that enhance lives.

Experience

2007 - 2014	Project Leader	<i>Interventional Radiology Suite II, Surrey (£2.5m)</i> A phased remodelling to provide new interventional radiology and fluoroscopy suites. A tight site along with onerous equipment requirements, limited floor to floor levels and the insertion of a new structural steel "cage" meant that this project had to be very carefully co-ordinated to ensure viability.
2007 - 2014	Project Leader	<i>Central Delivery Suite / MLU, Surrey (£2.4m)</i> A continuation of an earlier, successful, project working with the maternity department to provide a bereavement suite. This project consists of a central delivery department, with an adjacent midwifery suite. A phased project to limit bed loss during construction.
2007 - 2014	Project Leader	<i>Cardiac Catheter Lab, Frimley Park Hospital, Surrey (£2.8m)</i> A remodelling of an existing building, along with a 2 storey new build extension accommodating a new Cardiac Catheter lab, inpatient and outpatient facilities.
2007 - 2014	Project Leader	<i>Day Surgery Upgrade, Frimley Park Hospital, Surrey (£1.8m)</i> The remodelling of an existing Day Surgery ward and two associated operating theatres. This project took two run down ward operating theatres and their associated ward and created modern, appealing places for day surgery and breast surgery staff and patients.
2007	Project Leader	<i>Bath & North East Somerset, Care Homes Reprovision, Somerset (£18m)</i> A partnering project consisting of four separate developments for Bath & North East Somerset Council and Somer Housing Association.
2004	Project Leader	<i>Willesden Centre for Health & Care PFI, London (£18m)</i> Project leader and client and contractor point of contact, from BAFO stage through to Practical Completion. The project which involved replacing an existing hospital with a one-stop centre for the local community.
