

Kingston Riverside Development

Landscape design services for new build housing.

Kingston Riverside is a prestigious new residential development overlooking the river Thames and close to the commercial hub of Kingston upon Thames. The Eden Walk Shopping Centre is within a walking distance providing a variety of high street fashion and retail names outlets. Other nearby facilities are a 14 screen Odeon cinema, the David Lloyd Leisure centre and dozens of restaurants and cafes.

Sprunt worked in collaboration with Midgard to complete the design of these state of the art new homes. The plan consists of two stepping blocks of 11 and 15 storeys each and connected by a 6 storey building. The stepping blocks, benefitting of terraces with panoramic views over the River Thames, are framed by curved fins which enhance the development characteristic and contemporary look.

The layout of the buildings create an attractive semi private courtyard on a podium deck above a basement car park. This incorporates permeable surfaces and integrated soft landscape features linking with a site wide SUD's strategy

Roof gardens on the 6 storey blocks provide private amenity space for residents. and link through to the 11 and 15 storey blocks.

The remaining landscape integrates with the surrounding roads, access paths, existing trees and links to the riverside parkland. Planting is

designed to be low maintenance with native species used to enhance site wide biodiversity and meet code level four biodiversity requirements.

This project will be a new landmark for Kingston and for also for the developer Redrow in terms of the quality of the landscaping and the attention given to details
